

INDEX

[Major references are in boldface]

A

"A, an" 156
 Abandoned geologic name. *See* Geologic names.
 Abbreviations, petrologic 98
 Abbreviations, signs, and symbols 104
 accents and diacritical marks 105
 acronyms 147
 addresses 105
 avoidance of abbreviations 104, 147
 chemical elements,
 names, and symbols 105
 common words 109
 countries and other
 political subdivisions 104
 dates, months, format
 used in Survey reports 105
 directions, terms of 109
 geochronologic dating 45, 105, 117
 geographic names and geologic
 terms, not abbreviated 104
 land 107
 latitude and longitude 107
 map 210
 measurements 107
 minerals 107, 108
 months 105
 names and titles 107
 numbers 107
 percent 107, 117, 174
 periods after initials,
 contractions, or numbers 270
 petrologic abbreviations 99
 rock names 55, 108
 scientific and engineering
 terms (table) 109
 States and possessions of
 the United States 104, 270
 in references 237
 stratigraphic terms 55
 temperature 109
 terms used only a few times 104
 uncommon abbreviations 104
 "About, approximately, on the
 order of" 154, 156
 "Absent, lacking" 156
 Absolute and relative errors 120
 Abstract, formatting 262
 Gunning's fog index 148
 poster sessions 242
 scrutiny of 22
 talks at scientific meetings 23, 264
 written report 21, 228
 Abstract nouns in the
 subject of the sentence 151

"Abut" 151
 Accents and diacritical marks 105
 "Accomplish" 151
 Accuracy and consistency (writing
 and reviewing) 14, 229
 "Accuracy, precision" 156
 "Acid, acidic, alkaline,"
 as rock terms 99
 See also Petrologic terminology.
 Acknowledgments 12, 20, 25, 229
 analyses 12
 non-Survey people 12
 photographs 13, 202
 preferred form 13
 services 13
 Acronyms 75, 104, 147, 229
 aquifers 75
 avoidance, for clarity 104, 147
 Active versus passive voice 142
 See also Undesirable change in
 construction.
 A.D., B.C. 104
 "Additionally" (transition word) 149
 Adjectival expressions and
 adjectives, demonstrative 50
 excessively long 146
 misplaced 129
 misused for adverbs 129
 modifiers 127
 modifiers for mineral names 94
 nouns used as 94, 146
 petrologic modifiers 99
 "Access," as a verb 150
 Active voice. *See* Voice.
 Addresses, abbreviated 105
 Administrative reports,
 scope and format 3
 Adverbs 127, 130
 hyphenated 138
 Adverbial conjunction 130, 135
 "however" 135
 punctuated properly 135
 See also Time words versus place words.
 Aerial photographs,
 as illustrations 202
 compilation on 223
 ordering instructions 224
 radial displacements 223
 use with PG-2 plotter 223
 Affiliations, on title page 20
 "Age dating" 153
 See also Redundancies, meaningless.
 Agreement between
 sentence elements 125
 Algonkian. *See* Precambrian.
 "Align, alignment" 156
 "Aline" (not used in
 Government reports) 156

"Alkaline, alkalic," as applied
 to rocks and minerals 99
 See also Petrologic terminology.
 "All of" 157
 Allen, Arly, cited 209
 Alliteration, undesirable 152
 Allostratigraphic unit 43, 44, 45, 49
 Alphanumeric designations for
 aquifers, avoidance 75
 Alt, D.F., and Iseri, K.T., cited 35
 "Although," in sentence fragment 124
 "Although, whereas" 157
 "Altitude, elevation" 57
 "Always" 178
 a.m., p.m. 104
 American Association of Petroleum
 Geologists, cited 209
 American Geological Institute
 (AGI) Glossary 163
 American Heritage Dictionary (Second
 College Edition), noted 4
 quoted 150
 American Mineralogist 93
 American Museum of Natural History 102
 American National Metric Council 122
 American National Standards Institute/
 Institute of Electrical and
 Electronic Engineers 122
 American Society for Testing and
 Materials 109, 122, 270
 Ammonites, Early Jurassic,
 Alaska (table) 219
 "Among" 160
 Ampersand (&) 107
 Analyses and descriptions, petrologic 99
 "and" 158
 "And (or), and/or" 157
 final "and" preceded by a comma 132
 "And others," in citations 19, 234
 Annual State Water-Data
 Reports, scope and format 2
 Antecedents, "former, latter" 168
 indefinite 126, 128
 "it" 170
 "Aphanitic" 99
 Apostrophe, contractions 139
 "its, it's" 171
 possessive case 139
 plurals 139
 "Apparent, evident, obvious" 157
 "Appears, seems" 158
 Appendix 25, 264
 Appendixes, format 262
 "Approximately." *See* About, * * *.
 Aquiclude, aquifuge, aquitard. *See*
 Aquifer; Confining unit.
 Aquifer 65
 aquifer system 66

Aquifer—Con.
 comparison chart 67
 deriving names 69
 examples of designating
 and naming 77
 aquifer systems 77
 coastal area 77
 coincides with rock-
 stratigraphic unit 77
 crosses rock and
 time units 80
 different purposes
 and scales 81
 discontinuous rock-
 stratigraphic units 80
 large structural basin 80
 one rock-stratigraphic
 unit and part of another 77
 small part of two major
 rock-stratigraphic units 77
 Southwest alluvial basin 80
 thick lava flows 81
 formats for naming aquifers 76
 guidelines for naming 65
 nomenclature 65
 nonrecommended
 sources for names 74
 acronyms 75
 alphanumeric designations 75
 depositional environment 75
 depth of occurrence 75
 hydrologic condition 75
 relative position 75
 time-stratigraphic units 74
 redefining and
 renaming aquifers 76
 recommended sources for
 aquifer names 71
 geographic 74
 lithologic 71
 rock-stratigraphic 71
 terms to avoid 67
 type area, locality, or well 67
 zone 66
 Aquiformation 67
 Aquifuge 66
 Aquigroup 67
 Aquitard 66
 See also Ground water, terms.
 Arabic numbers versus Roman
 numerals 117, 239
 Archean 60
 See also Geologic time divisions.
 Archeozoic. *See* Precambrian.
 Archives, Survey 213
 "Are/is," as principal verbs 125
 "Area, region, section" 158
 "Arenaceous" versus "sandy" 99
 Arithmetic operations,
 significant figures 120
 "As, since, because" 158
 "As much as, up to" 158
 "As well as" 133, 158
 "Assume, presume, postulate" 159
 "Assure, ensure, insure" 159

Asterisks instead of periods
 in ellipsis 15, 139
 Atlases 4
 Atomic names, symbols,
 and weights 106
 "Audience, readership" 59
 Author, cited in
 references 234, 236, 239
 foreign name in references 236
 name preference and continuity 16
 Author and editor 9
 Author copy, illustrations 209
 Author responsibilities after
 Director's approval 5
 "Author's Check List" (Form 9-1517)
 184, 188, 194, 199, 209, 211, 212
 Author's check of maps and
 other illustrations
 before review 210
 authorship 211
 base credit 211
 captions 211
 checklist (Form 9-1517) 211
 completeness 210
 cooperative note 211
 correctness of data 211
 credit notes 211
 marginal data 211
 scale 211
 topographic data 211
 Authorship and coauthorship 19
 affiliations 20
 multiple chapters 20
 multiple names 20
 page charges to Survey 20
 principles governing 19
 Azoic. *See* Precambrian.

B

Bailey, S.W., cited 94
 "Balance, remainder, rest" 159
 Band graph 204
 Base maps, credit note 197
 mosaicked 185
 needs 185
 page-size maps 195
 reduction of 185
 scale 185
 stable material 186
 "Based on, on the basis of" 159
 "Basic," as applied to rocks
 and minerals 99
 See also Petrologic terminology.
 "Basis of." *See* "Based on, on the
 basis of."
 Bates, R.L. VIII, 132, 146
 Bates, R.L., and Jackson,
 J.A., quoted 66
 cited 98
 Bayliss, Peter, cited 93
 "Because" 158
 Berry, W.B.N., and
 Boucot, A.J., cited 61

"Beside, besides" 160
 "Between, among" 160
 Bibliographic citations. *See* References,
 preparing.
 Billions of years 60, 105
 Biostratigraphic nomen-
 clatures checked 45
 "Bisect into two parts" 153
 See also Redundancies, meaningless.
 Blackadar, R.G., and others, cited 90
 Board on Geographic Names 7, 83
 mailing address 85
 See also Geographic names.
 Body of text, format 253
 Boldface type, in lieu of italic 141
 not to be used for emphasis 141
 Book titles in text; important words
 capitalized. *See* References,
 preparing.

C

- Cadence 132, 141
- "Calculate, compute, determine, estimate" 160
- Calkins, Frank C., cited 132, 134, 141, 144, 151
- Camera-ready copy, format 256
- Camera-ready tables, widths for 258
- "Can, could; may, might" 160
- Capitalization, following a colon 136
 - formal geologic names 55
 - geographic names 87
 - geographic-geologic names 90
 - in proof 267
 - ka and kilo not capitalized 107
 - stratigraphic names 46, 55
 - temporary distinction 88
 - terms used consistently 88
 - titles of books and articles in text 235
- Captions, format 255
 - photographs 199
 - plates 211
 - short form of captions 256
 - text figures 255
- Carboniferous 60
 - See also* Geologic time divisions.
- Cartographic technician. *See* Illustrator.
- "Case, instance" 153, 160
- Categories and ranks of stratigraphic units 43
- Cater, Marjorie J. VIII
- Cather, Willa, quoted 165
- "Centered around, at, in, on, upon" 161
- Change in construction, undesirable 152
- Changes in copy after Director's approval 10
- "Character, conditions, purposes" (extraneous use of) 161
- "Characteristic, distinctive, typical" 161
- Check prints (proofs), final changes and corrections 213
- Checking drafted illustrations 10
- Checking report, first transmittal 8
- Checklist for illustrations, author's 188
- Checklist for format of completed manuscript 263
- Checklist for maps and other illustrations before review. *See* Author's check of maps * * *
- Checklist for reviewers of maps and sections 233
- Chemical analyses, acknowledgment of 13
 - in weight percent of oxides 91
 - rare earths 91
 - reporting oxides and ions 91
 - significant figures 121
- Chemical symbols, elements 105, 106
 - in tables and equations 91
 - in text 91, 105
 - names and symbols 106
 - printed in roman, not italic 141
- Chemical nomenclature as it relates to mineralogy 93
 - adjectival modifiers 94
 - mineral names 93
 - prefixes 94
 - suffixes 94
- Chemical terminology 91
 - isotopes 91
 - "lime," misused for calcium 92
 - mercury/quicksilver 92
 - "potash," misused for potassium 92
 - "soda," misused for sodium 92
 - "sulfur/sulfate" versus "sulphur/sulphate" 92
- Cherry, J.A., cited 65
- Choice of names on title page. *See* Authorship and coauthorship.
- Choosing the right word 156
 - usages that distort the true meaning 150
- Christiansen, Ann Coe VIII
- Chronostratigraphic unit 61, 62
 - See also* Temporal and related units.
- Circular (pie) diagram 207
- Circulars, preparation 27, 209
 - sample figure caption 256
 - scope and format 2, 240, 250
- Clarity 15, 16, 143, 151, 152, 181, 229
 - ellipsis 155
 - flow and cadence; listening for by reading aloud 141
 - in descriptive paleontology 100
 - ten steps toward 147
 - through careful choice of words 165
 - through parallel construction 144, 146
 - use of numbers to separate items in a series 134
- Clarke, F.W. 99
- Classification of mineral resources 96
- Clause/phrase, dependent 142
 - independent 124, 125, 133, 142
 - nonrestrictive 142, 143, 144
 - parenthetical expression 144
 - restrictive 142, 143, 144
 - "that, which" 143
- Clear writing 15
- Cleavage symbol 187
- Coal Investigations Maps 3
- Coauthorship 19
- Cochran, Wendell, and March, S.F., cited 4
- Cochran, Wendell; Fenner, Peter; and Hill, Mary, cited 5
- Coherence in the report 124, 149
 - paragraph length and organization 149
 - topic sentences 149
 - transitions 149
- Coined verbs 150
- Colleague contributions, acknowledgment of 13
- Colleague review 8, 32, 36, 226, 230
 - See also* Maps * * *, review; Reviewing technical reports.
- Collectives and their verbs 118, 126
- "Collide, collision" 151
- Collins diagram 205
- Colloquial mineral names 93
- Colon 136
 - after an introductory statement 136
 - between independent clauses 136
 - emphatic 136
 - in references 236-238
 - introduction to a long quotation 136
 - misuse following incomplete statement 136
- Color terms used to describe rocks 55
- Column or vertical bar graph 204
- Columnar sections 55
 - example 58
- Columbium 92
- Combination graphs 208
- Comma 132
 - after introductory phrase or clause 132
 - before final "and" in a series 132
 - before "so, then, or yet" 133
 - between adjective and adverb 133
 - footnote references 270
 - for emphasis 134
 - independent clauses 133
 - parallel parts of series 132
 - preventing misreading 134

- "Compare, with/to" 153
- Comparison (transition word) 149
- Comparison and contrast expressions 145
- Compher, B. Arlene VIII
- Compass directions (west, westward, westerly) 162
- Complex intertonguing, example in a stratigraphic cross section 56
- Complex sentence 142, 152
 - See also* Sentences, four types.
- "Compose, comprise, consist, constitute, include" 162
- Compound-complex sentence 142, 152
 - See also* Sentences, four types; Change in construction.
- Compound modifier, form of when a number 117
- Compound sentence 124, 133, 142, 152
 - See also* Sentences, four types.
- Compound-singular-subject/singular-verb problem 125
- Compound words, adjectival 138, 146

Compound words—Con.
 adverbial 135, 138
 hyphenated in unit
 modifiers 137, 146
 geographic names 83
 geologic terms 270
 rock names 98, 99, 137
See also Exceptions to GPO Style Manual; Hyphen.

“Comprise” 162
 “Compute” 160

Computer-assisted geologic mapping 224
 plotting 186

Computer graphics 186, 187, 198

Concession (transition word) 149

Conciseness 147

“Conclude, deduce, imply, infer” 163

Concluding section of report 25

Conclusion (transition word) 149

Concrete nouns versus
 abstract nouns 151

“Conditions” (extraneous use of) 161

“Conduct” 154, 163

Confining unit 67
 naming 76
See also Aquifer.

“Conform to, conformity with” 153

“Congeliturbation.” *See* Stilted and
 showy language.

Congressional Joint
 Committee on Printing 185

Conjunction 130
 adverbial (consequently,
 however, nevertheless,
 therefore, thus) 130, 135
 coordinating (and, but, for,
 nor, or, so, still,
 yet) 125, 130, 142, 144
 correlative (both/and,
 either/or) 144
 in parallel construction. *See* Parallel
 construction.
 subordinating (after, although,
 because, unless,
 when, whereas) 130

Connor, Carol Waite VIII

“Consist, compose” 162

“Conspicuous, prominent” 163

“Constitute, compose” 162

Contact (geologic), dashed,
 dotted, or solid line 186

Content and form of a report 19

Contents, table of 21
 checklist 263
 formatting 251
 STA IX

“Continual, continuous” 163

Contraction, in technical writing 136

“Contrast, between/with” 153
See also Transitions, words for.

“Contributions to Stratigraphy”
 (Bulletin series) 63

“Converge” 151

Conversion factors, metric and
 inch/pound units (table) 122

Cooperation statement, with
 other agencies 20

Cooperative relationships with
 outside agencies 12

Coordinate information in
 parallel construction 146

Copyright transfer 14

Copyrighted material,
 permission to use 13

Coordinate (independent) clause 142

Coordinating conjunction 130, 144
See also Independent clause.

Correlation chart, example showing
 stages, ages, molluscan
 zones, and formations 53

Correlation charts and
 stratigraphic tables 52

Correlation diagram, from a 1-degree
 × 2-degree geologic map 51

Correlation (or sequence)
 of map units 187

Correlative conjunction 144

“Correspond, to/with” 153

“Could, can” 160

Cover art and other special artwork 202

Credit. *See* Acknowledgments.

Credits and copyrights 13

Criteria for authorship 19

“Crop out, outcrop” 163

Cross sections, complex
 intertonguing 55
 exaggerated 194
 orientation 192
 patterns and lines 187, 194

“Crossbedded, cross-laminated,
 cross-stratified” 163

Current publications. *See* Publications of
 the U.S. Geological Survey.

Curve or line graph 204

Customary abbreviations used
 by Survey for States
 and possessions 104

D

Dangling participle 128, 129, 147

Dash 136
 abrupt change of thought 137
 emphasis 136
 nonrestrictive phrasing 136
 to prevent misreading 137

“Data, facts, information” 163

“Data,” plural of “datum” 163

Dates, abbreviations, format 105, 117
 geochronologic 45, 105

Davidson, Claire B. VIII

De La Roche, H., and others, cited 98

Decimals 117, 119, 120, 121

Dedication of Survey publications 13

“Deduce” 163

Deer, W.A., and others, cited 91

Definitions, aquifer 65
 confining unit 66
 petrologic 98

Definitions—Con.
 reserves and resources. *See* Mineral
 reserves, * * *
